Dockets Management Branch (HFA-305)  
Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

**I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.**

COMMENTS: My body and its needs are my personal choices. Because I was diagnosed for bone density loss last year my doctor prescribed female hormone replacement, natural ones. I have been getting my prescriptions from a specialized pharmacy in Madison, WI. which you, the FDA, are trying to take away. Docket No. 98N-1265. A memorandum of understanding (MOU) is circulating to state boards of pharmacy - probably to every address in the country! The government, the large pharmaceutical lobbyists, who are acting out of fear of loss of profits are the demons against women's choices in the care of their bodies.

I am doing whatever I can to live as long as possible. Is that wrong? To stay out of hospitals, to rely on less rather than more drugs to sustain my health - is this threatening to you and the lobbyists? I think it is. Please let specialized pharmacies continue to send their medications across state lines.

Whether you believe Please fold, seal, and mail by March 22

it or not - we women have power to stop this insanity of someone else (men) having the say about what is good for us. So watch out!

Sincerely, Dorothy Kassel

98N-1265
